

Downtown LA and Freeways

Photographic Adventurers.com

Jan 30, 2014

R U Adventurous? If so, join a fun group for a Photographic Adventure. We will head up to LA and capture images of some of LA's best known sites. We will hope for more snow low down in the local mountains to capture the below image of the LA skyline with the snow covered mountains in the background. Depending on conditions we are always flexible. We may visit the Grand Central Market, the Bradbury Building and other Downtown Landmarks. And we will find a spot to capture the freeways of LA. We will carpool as much as possible.

William Hartshorn will give us special tips, talk about composition, exposure and lighting, answer our questions and provide an enjoyable adventure for everyone attending. Whether you are a Beginner and/or Advanced – you are always encouraged to take advantage of an enjoyable photo adventure with Will. Make the pictures you take “keepers” without laboring away on the computer! Go to www.wghartshorn.com to see William's biography, gallery and other upcoming workshops www.PhotographicAdventurers.com. Drop us an email at PhotographicAdventurers@gmail.com for more information and to hold your spot.

This is sure to be a fun filled and unique Adventure.
