

Rose Parade Float Viewing

Photographic Adventurers.com

Jan 2, 2016

R U Adventurous? If so, join a fun group for a Photographic Adventure. We will head up to the viewing area to see the Rose Parade floats the day after the parade. It is an amazing site to see these floats in person. If you have never seen them in person – don't miss this opportunity. We will carpool to avoid the parking hassle.

William Hartshorn will give us special tips, talk about composition, exposure and lighting, answer our questions and provide an enjoyable adventure for everyone attending. Whether you are a Beginner and/or Advanced – you are always encouraged to take advantage of an enjoyable photo adventure with Will. Make the pictures you take “keepers” without laboring away on the computer! Go to www.wghartshorn.com to see William's biography, gallery and other upcoming workshops www.PhotographicAdventurers.com.

This is sure to be a fun filled and unique Adventure.
