

Yosemite Winter – Horsetail falls

Photographic Adventurers.com

February 11-13, 2015

Come out and join us in **Yosemite** with the "Master of the Picture Perfect Postcard", **William Hartshorn**

Whether you are a Beginner, Intermediate or Advanced Photographer, you are encouraged to take advantage of an enjoyable photo adventure with William. Make the pictures you take "keepers" without laboring away on the computer!

The Yosemite in Winter, will provide many varied opportunities to **capture great images**. And don't forget the famous Horsetail falls - is a seasonal waterfall that flows in the winter and early spring. The waterfall occurs on the east side of El Capitan. If Horsetail Falls is flowing in February and the weather conditions are just right, the setting sun illuminates the waterfall, making it glow orange and red. This natural phenomenon is often referred to as the "Firefall", a name that pays homage to the manmade Firefall that once took place in Yosemite.

William has **30 plus years of experience** in the Sierra's and Yosemite Valley getting to the best spots at the best times to capture the best shots. From waterfalls, rainbows and all the classic Yosemite views - William knows all the spots to get the best light. We never know what Mother Nature will serve up - but we are sure to make the most of it with William.

A Photographic Adventure with William is a fun time you will remember along with the great shots you will capture. Hopefully you are Adventurous!
